Subject Index—Volume 57

Communication

All invited to help care for our Nation's forests. Donna M. Paananen. 57(1):17
Campaign reminds us to be responsible stewards of the land. Tara Megan Chambers. 57(1):15-17
Check your chain saw. Ariana M. Mikulski. 57(4):18
Firefighter arson: Gaining control. Ken Cabe. 57(3):22
Fire information for everyone, any time. Nicole R. Higgason. 57(4):32-33
Fire program management course available. Laurie Perrett. 57(1):13-14
"Fire's Role in Nature" wins top media award. Donna M. Paananen. 57(4):34
Homeowner protection efforts can and do work. Judith Leraas Cook. 57(3):24-26
How a community heals: Lessons learned from Buffalo Creek. Faith L. Duncan. 57(3):11-14
Prevention reduces losses during Southwest fire siege. Judith Downing. 57(4):10-13
Public outreach programs = wildland fire prevention. Robert Valen. 57(3):7-8
Safety from a lightning strike. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):10
"Smokey's Animal Friends": Partners in prevention. Nancy Lyn Porter. 57(3):15-16
Spark arrester update and guide now available. Nicole R. Higgason. 57(3):8
Stihl chain saw alert. Ariana M. Mikulski. 57(3):14
Wildland-urban interface information now online. 57(1):7

Cooperation

All invited to help care for our Nation's forests. Donna M. Paananen. 57(1):17
Campaign reminds us to be responsible stewards of the land. Tara Megan Chambers. 57(1):15-17
Federal assistance available to rural and local fire departments. Laurie Perrett. 57(4):16-18
Fifteen Smokey Bear statuettes awarded for 1996. Ariana M. Mikulski. 57(4):26-28
Fire program management course available. Laurie Perrett. 57(1):13-14
"Fire's Role in Nature" wins top media award. Donna M. Paananen. 57(4):34
The last drive: Going miles for FEPP. Dana Stone; Donna M. Paananen. 57(1):4-7
Managing fire risk to people, structures, and the environment. Mary Jo Lavin. 57(4):4-6
Never rule out measures of prevention. Merle Glenn. 57(3):9-10
NFF assists firefighters, their families, and the lands they protect. Sherry Greenwood. 57(4):29-31
1996 Alaskan wildland-urban interface fire—a catalyst for public involvement. Lee Clark; Kathryn D. Hardy. 57(4):7-9
Prevention: An emerging science. Billy J. Terry. 57(3):4-6
Prevention reduces losses during Southwest fire siege. Judith Downing. 57(4):10-13
Public outreach programs = wildland fire prevention. Robert Valen. 57(3):7-8
"Smokey's Animal Friends": Partners in prevention. Nancy Lyn Porter. 57(3):15-16
Teaming up in the wildland-urban interface. Merle Glenn. 57(4):14-15
Training a new generation of emergency response personnel. Kent Contreras. 57(1):10-12
Wild flowers rather than wildfires. Jeannette Hartog. 57(3):27

Ecosystem Management

All invited to help care for our Nation's forests. Donna M. Paananen. 57(1):17
"Fire's Role in Nature" wins top media award. Donna M. Paananen. 57(4):34
Is Smokey wrong? Jimmye L. Turner. 57(3):17
1996 national prescribed fire awards presented to eight recipients. David L. Bunnell. 57(4):24-25
NFF assists firefighters, their families, and the lands they protect. Sherry Greenwood. 57(4):29-31
Origins of arson in northwestern Spain. Domingo M. Molina. 57(3):18-23

Equipment

Check your chain saw. Ariana M. Mikulski. 57(4):18
Federal assistance available to rural and local fire departments. Laurie Perrett. 57(4):16-18
The last drive: Going miles for FEPP. Dana Stone; Donna M. Paananen. 57(1):4-7
Lightning detection and data use in the United States. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):4-9
SODAR and decisionmaking during the Fork Fire. Fred Svetz; Alexander N. Barnett. 57(2):28-31
Spark arrester update and guide now available. Nicole R. Higgason. 57(3):8
Stihl chain saw alert. Ariana M. Mikulski. 57(3):14

Fire Behavior

High resolution fire weather models. Francis M. Fujioka. 57(2):22-25

Fire Effects

How a community heals: Lessons learned from Buffalo Creek. Faith L. Duncan. 57(3):11-14

General Fire Management

Computer tools can help lookout observers. Julian M. Pike. 57(1):18-20
Current status of the Wildland Fire Assessment System (WFAS). Robert E. Burgan; Patricia L. Andrews; Larry S. Bradshaw; Carolyn H. Chase; Roberta A. Hartford; Don J. Latham. 57(2):14-17
Federal assistance available to rural and local fire departments. Laurie Perrett. 57(4):16-18
Fire program management course available. Laurie Perrett. 57(1):13-14
Never rule out measures of prevention. Merle Glenn. 57(3):9-10
Origins of arson in northwestern Spain. Domingo M. Molina. 57(3):18-23
WFAS requires a variety of weather information. Robert E. Burgan; Larry S. Bradshaw. 57(2):18-21

Personnel

The last drive: Going miles for FEPP. Dana Stone; Donna M. Paananen. 57(1):4-7
Fifteen Smokey Bear statuettes awarded for 1996. Ariana M. Mikulski. 57(4):26-28
1996 national prescribed fire awards presented to eight recipients. David L. Bunnell. 57(4):24-25
NFF assists firefighters, their families, and the lands they protect. Sherry Greenwood. 57(4):29-31
Training a new generation of emergency response personnel. Kent Contreras. 57(1):10-12

Planning

Firefighter arson: Gaining control. Ken Cabe. 57(3):22
Making sense of fire weather. Brian E. Potter. 57(2):26-27
Managing fire risk to people, structures, and the environment. Mary Jo Lavin. 57(4):4-6

Origins of arson in northwestern Spain. Domingo M. Molina. 57(3):18-23
Prevention: An emerging science. Billy J. Terry. 57(3):4-6
SODAR and decisionmaking during the Fork Fire. Fred Svetz; Alexander N. Barnett. 57(2):28-31
Structure ignition assessment can help reduce fire damages in the W-UI. Jack Cohen; Jim Saveland. 57(4):19-23
Tracking thunderbolts: Technology at work. Phil Sielaff. 57(2):11-13
Wisconsin's hazard identification system. Philip T. Stromberg. 57(1):8-9

Prescribed Burning

Is Smokey wrong? Jimmye L. Turner. 57(3):17
1996 national prescribed fire awards presented to eight recipients. David L. Bunnell. 57(4):24-25

Presuppression

Computer tools can help lookout observers. Julian M. Pike. 57(1):18-20
Lightning detection and data use in the United States. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):4-9
Making sense of fire weather. Brian E. Potter. 57(2):26-27
Structure ignition assessment can help reduce fire damages in the W-UI. Jack Cohen; Jim Saveland. 57(4):19-23
Wisconsin's hazard identification system. Philip T. Stromberg. 57(1):8-9

Prevention

Campaign reminds us to be responsible stewards of the land. Tara Megan Chambers. 57(1):15-17
Fifteen Smokey Bear statuettes awarded for 1996. Ariana M. Mikulski. 57(4):26-28
Firefighter arson: Gaining control. Ken Cabe. 57(3):22
Fire information for everyone, any time. Nicole R. Higgason. 57(4):32-33
Homeowner protection efforts can and do work. Judith Leraas Cook. 57(3):24-26
How a community heals: Lessons learned from Buffalo Creek. Faith L. Duncan. 57(3):11-14
Is Smokey wrong? Jimmye L. Turner. 57(3):17
Never rule out measures of prevention. Merle Glenn. 57(3):9-10
1996 Alaskan wildland-urban interface fire—a catalyst for public involvement. Lee Clark; Kathryn D. Hardy. 57(4):7-9
Prevention: An emerging science. Billy J. Terry. 57(3):4-6
Prevention reduces losses during Southwest fire siege. Judith Downing. 57(4):10-13
Public outreach programs = wildland fire prevention. Robert Valen. 57(3):7-8
"Smokey's Animal Friends": Partners in prevention. Nancy Lyn Porter. 57(3):15-16
Spark arrester update and guide now available. Nicole R. Higgason. 57(3):8
Teaming up in the wildland-urban interface. Merle Glenn. 57(4):14-15
Wild flowers rather than wildfires. Jeannette Hartog. 57(3):27

Safety

Check your chain saw. Ariana M. Mikulski. 57(4):18
Safety from a lightning strike. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):10
Stihl chain saw alert. Ariana M. Mikulski. 57(3):14

Systems

Computer tools can help lookout observers. Julian M. Pike. 57(1):18-20
Current status of the Wildland Fire Assessment System (WFAS). Robert E. Burgan; Patricia L. Andrews; Larry S. Bradshaw; Carolyn H. Chase; Roberta A. Hartford; Don J. Latham. 57(2):14-17
Fire information for everyone, any time. Nicole R. Higgason. 57(4):32-33
High resolution fire weather models. Francis M. Fujioka. 57(2):22-25
Tracking thunderbolts: Technology at work. Phil Sielaff. 57(2):11-13
WFAS requires a variety of weather information. Robert E. Burgan; Larry S. Bradshaw. 57(2):18-21
Wildland-urban interface information now online. 57(1):7

Training

Fire program management course available. Laurie Perrett. 57(1):13-14
Training a new generation of emergency response personnel. Kent Contreras. 57(1):10-12

Weather

Current status of the Wildland Fire Assessment System (WFAS). Robert E. Burgan; Patricia L. Andrews; Larry S. Bradshaw; Carolyn H. Chase; Roberta A. Hartford; Don J. Latham. 57(2):14-17
High resolution fire weather models. Francis M. Fujioka. 57(2):22-25
Lightning detection and data use in the United States. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):4-9
Making sense of fire weather. Brian E. Potter. 57(2):26-27
Safety from a lightning strike. Brenda L. Graham; Ronald L. Holle; Raúl E. López. 57(2):10
SODAR and decisionmaking during the Fork Fire. Fred Svetz; Alexander N. Barnett. 57(2):28-31
Tracking thunderbolts: Technology at work. Phil Sielaff. 57(2):11-13
WFAS requires a variety of weather information. Robert E. Burgan; Larry S. Bradshaw. 57(2):18-21

Wildland-Urban Interface

Homeowner protection efforts can and do work. Judith Leraas Cook. 57(3):24-26
Managing fire risk to people, structures, and the environment. Mary Jo Lavin. 57(4):4-6
1996 Alaskan wildland-urban interface fire—a catalyst for public involvement. Lee Clark; Kathryn D. Hardy. 57(4):7-9
Structure ignition assessment can help reduce fire damages in the W-UI. Jack Cohen; Jim Saveland. 57(4):19-23
Teaming up in the wildland-urban interface. Merle Glenn. 57(4):14-15
Wild flowers rather than wildfires. Jeannette Hartog. 57(3):27
Wildland-urban interface information now online. 57(1):7
Wisconsin's hazard identification system. Philip T. Stromberg. 57(1):8-9
